Comments

1. Neither mercury nor any of its compounds are used in the manufacturing of our extrusions or sheet and plate.
2. This material complies with RoHS, and lead(Pb) does not exceed 0.4% by weight in case of material for a high degree of machinability alloy.

Applicable Specification
Specification No. Revision Amendment
ASTM S A E AMS-QQ-A-250/12

We hereby certify that the material covered by this report has been inspected in accordance with, and has been found to meet, the applicable requirements described herein, including any specifications forming a part of the description and that the samples representative of the material met composition limits and had the mechanical properties shown on the face of this sheet.
